

# So Close

Jennette McCurdy

You just keep tugging, pushing, pulling  
On my little heartstrings  
Got me all tied up in knots  
Anytime I see your face  
Oh, it brings out  
It brings out the girl in me

Don't know just how you did it  
But you got me real good  
Hook, line and sinker  
Like I knew you could  
But you don't even notice  
Boy, I wish you would

I can't help myself  
I can't help but smile  
Every time I see your face  
And we never met  
I bet you don't know my name  
I'm a out of my mind  
I think that I might be going crazy  
'Cause my heart is your's to have and hold or break  
Oh, how'd you get to be so close, when you're so far away

We might be close to perfect  
Girls, you know what I mean  
He's got a face strait out  
Of a magazine  
Gotta pinch myself  
To proof he aint a dream  
Oh, oh, oh

Can't help myself  
Now my secrets out  
I can't help but smile  
Every time I see your face  
And we never met  
I bet you don't know my name  
I'm a out of my mind  
I think that I might be going crazy  
'Cause my heart is your's to have and hold or break  
how'd you get to be so close when you're so far away

I wish you were mine  
Oh, mine  
Mine, oh, mine  
I wish you were mine  
Oh, mine  
I wish you were mine

I can't help but smile  
Every time I see your face  
And we'll never met  
I bet you don't know my name  
I'm a out of my mind  
I think that I might be going crazy  
'Cause my heart is your's to have and hold or break

How'd you get to be so close. when you're so far away

How'd you get to be so close when you're so far away
