

Starlight

Jennie

You say you see the starlight in me
Shining so bright and pristine
What about the moments in between?

You said you see the starlight in me
What about the black mystery?
What about the moments you don't see?

It's way deeper than what you think
I'm tired of that Novocaine
Put all that shit away
I wanna feel everything

I was just a white, white, white, lie, lie
Truth comes out in time, time, time, every time
I know where my soul has been

Now I remember the night
Remember the night
Now I remember the night
Remember the night

Yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah
Starlight bright
Starlight bright
Starlight bright
Starlight

Yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah
Starlight bright
Starlight bright
Starlight bright
Starlight

So many after hours
I just wanna make my mama prouder
When the stupid thoughts started getting louder
Said, "Bitch, chill out and took a cold shower"

Like we gon' levitate
Gon' levitate
To the 808
I gravitate to the real, not fake
And this time, it's on me

'Cause I remember the night
Remember the night
Now I remember the night
Remember the night

Yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah
Starlight bright
Starlight bright
Starlight bright

Starlight

Yeah, yeah, yeah, yeah

Yeah, yeah, yeah, yeah

Starlight bright

Starlight bright

Starlight bright

Starlight

Starlight bright

Starlight bright

Starlight bright

Starlight

Starlight bright

Starlight bright

Starlight bright
