

Faint

Jennifer Lopez

Chris & Teeb

Oh baby, the room stars spinnin'
I think the floors about to meet me
Every single time you step on me
Oh baby, it's beyond butterflies now,
It's more like I'm mesmerized now
Can't stay relaxed when you look in my eyes
Ain't even gotta whisper
And my knees get weak
Don't let me see you comin'
I'll forget how to speak
And baby when you're near me
I can't even think,
It's like I, oh I think I.

I'm about to ooh ooh ooh ooooh faint baby
When I fall, when I see you, can't stand up straight
When I touch you, ohh baby ooh ooh ooh ooooh faint baby
When you do the things you do, you make me wanna,
Think I'm gonna faint.

Ohh baby, when we gettin' close
Got a feelin', I already know,
Ooh, every single time I'm ready to hit the floor
Come and catch me, before I am down
3, 2 and you know I'm out
I'm tryin' to calm down
What you do to me when you're around.
Ain't gotta whisper
And my knees get weak
Don't let me see you comin'
I'll forget how to speak
And baby when you're near me
I can't even think,
It's like I, oh I think I.

I'm about to ooh ooh ooh ooooh faint baby
When I fall, when I see you, can't stand up straight
When I touch you, ohh baby ooh ooh ooh ooooh faint baby
When you do the things you do, you make me wanna,
Think I'm gonna faint.

Grab a pillow, cause I'm about to fall hard
So good, that baby you catch me off my guard
I don't hurt myself if I ever hit the ground
Come catch me
Cause you got me falling out.

Ooh ooh ooh ooooh faint baby
When I fall, when I see you, can't stand up straight
When I touch you, ohh baby ooh ooh ooh ooooh faint baby
When you do the things you do, you make me wanna,
Think I'm gonna faint.

Faint baby
You make me wanna

Faint
