

Stay Together

Jennifer Lopez

Yeah... Whoo!

Through the bumpy roads the others bite the dust
'cause they be thinking there in love when their in lust
But cliché breakin' up so easy
Im about to throw a curve ball honey
People let the stormy weather push them out
Back against the road it's easy to be over

Dont Sweat the little things wake up
Stay together
It's a new break up

Everyday I think how we done it
Every way that we can keep lovin'
Toe to toe
So strong and on and on
We up and runnin'
Not a day goes by without dreamin'
Not A Thing Goes Out Just Keep Reachin'
Through The Storm We Stay Warm And On And On
We Keep On Lovin'

This time is in our favor
This time comes second nature
Heartbreaks are overrated
Stay together
That's the new trend
Boy we done started something serious
'Cause romance is underrated
Stay together
That's the new trend

Through the bumpy roads the others bite the dust
And seems like everyone's giving up when
These days breaking up is so cliché
Hear 'em screaming out, "Baby no please stay"
People wanna always hurry up and wait for
Someone better than the person they won't stay for
They Sweat The Little Things Wake Up
Stay together
It's the new breakup

Everyday I think how we done it
Every way that we can keep lovin'
Toe to toe
So strong and on and on
We up and runnin'
Not a day goes by without dreamin'
Not A Thing Goes Out Just Keep Reachin'
Through The Storm We Stay Warm And On And On
We Keep On Lovin'

This time is in our favor
This time comes second nature
Heartbreaks are overrated
Stay together

That's the new trend
Boy we done started something serious
'Cause romance is underrated
Stay together
That's the new trend

(Hey, yeah...)

And though there will be the nights of fights
And we must face it
It's like a rollercoaster
Ups and downs will come
As long as we hold tight
And never act complacent
Remember how we built this
Then our love is never done

Everyday I think how we done it
Every way that we can keep lovin'
Toe to toe
So strong and on and on
We up and runnin'
Not a day goes by without dreamin'
Not A Thing Goes Out Just Keep Reachin'
Through The Storm We Stay Warm And On And On
We Keep On Lovin'

This time is in our favor
This time comes second nature
Heartbreaks are overrated
Stay together
That's the new trend
Boy we done started something serious
'Cause romance is underrated
Stay together
That's the new trend

(Hey, uh!)
