Jennifer Lopez

Is this a warning?  
My heart beatin' on an upbeat  
(On an up, on an upbeat)  
Is this a caution?  
That I can't get enough for your need

Could it be us  
Could it be us  
Could it be us  
Could it be us  
Feelin' you go on and touch my love  
Throwing it out here, you go catch up  
Could it be us  
Could it be us (Could it be us)  
Could it be us

I'm right here  
Don't wake me if I'm dreaming  
Could you be the one without a doubt?  
Could I be full your keepin'

Could it be us  
Could it be us  
Could it be us  
Could it be us  
Feelin' you go on and touch my love  
Throwing it out here, you go catch up  
Could it be us  
Could it be us (Could it be us)  
Could it be us

Could it be us  
Feelin' you go on and touch my love  
Throwing it out here, you go catch up  
Could it be us  
Could it be us (Could it be us)

Could it be us
