

What You Mean To Me

Jennifer Lopez

Standing here
All at once
All the words run dry
Something's changed
Can't explain
And I can't deny
Turning in circles
And blurring the lights
The unspoken is calling us tonight

I won't lie
I'm a little bit frightened
Of my imagination
I swear I'll try
Cause I'm feeling enlightened
You're my inspiration
We can fly if we want to
I promise you faith will give you wings
Just take the second star on the right
Straight ahead to the morning light

Close your eyes
Will you dream
That's where I will be
Say it's true (it's true)
Say you do (I do)
Say you do believe
The greatest adventures are waiting so patiently
Angels are calling us tonight

I won't lie (No, I won't babe, oh...)
I'm a little bit frightened
Of my imagination
I swear I'll try
Cause I'm feeling enlightened
You're my inspiration
We can fly if we want to
I promise you faith will give you wings
Just take the second star on the right
Straight ahead to the morning light

Every shape and all the colors
All the love from all the lovers
Never could express just what you mean to me
Every word and every sentence doesn't seem to make a difference
(Turning in circles and blurring the lights)
Nothing can explain just what you mean to me (oh)

No I won't lie (no)
I'm a little bit frightened
Of my imagination (of my imagination)
I swear I'll try (I'll try)
Cause I'm feeling enlightened
You're my inspiration (Yeah you're my inspiration)
We can fly if we want to
I promise you faith (promise you) will give you wings
Just take the second star on the right

Straight ahead to the morning light

Just take the second star on the right
Straight ahead to the morning light

Every star that's ever fallen
Knows the way to where we're going
Now I really know just what you mean to me
