

# Like I Would for You

Jennifer Rush

There's a space I can't reach across  
When I try my heart gets lost  
And you hold back no matter what I do

Will you know I can't read your mind  
There's a wall that you hide behind  
Want you tear it down?  
Like I would for you

Come one and show me now  
How do you feel inside  
Don't few hide it, get a little reckless  
Baby leave me breathless  
Like I would for you

Right now it's deeper than before  
I need you to move me  
Shake up your emotions get your hide emotions now  
Like I would for you

Would you say through an endless night and the storm  
With my short inside? Would you buy your soul?  
if I ask you do

Would you fight in the name of love?  
Would you die just to have enough? ooh would you babe?  
Like I would for you

Come one and show me now  
How do you feel inside  
Don't few hide it, get a little reckless  
Baby leave me breathless  
Like I would for you

Right now it's deeper than before  
I need you to move it  
Shake up your emotions get your hide emotions now  
Like I would for you&..

And they sing for you  
Don't you know it's true

Come one and show me now  
How do you feel inside  
Don't few hide it, get a little reckless  
Baby leave me breathless  
Like I would for you

Right now it's deeper than before  
I need you to move it  
Shake up your emotions get your hide emotions now  
Like I would for you
