

# My Heart Is Still Young

Jennifer Rush

I must be falling  
Or is it just a dream  
No this is it  
There's no in between.

You know I want you  
I know that you want me  
This heart's a lock  
And you hold the key.

You just stood there  
And watched since I fell  
I give in do you promise me hell

Take my heart  
Take my hand  
Show me what do you want  
Got my will  
What you got is my love on command.

So tell me how does it feel  
In the palm of your hand to stay  
My heart is still young.

You know my weakness  
I know it's shining through  
Now all my secrets  
They're all above you  
Where's my protection  
From what I don't wanna know  
'Cause when you touch me  
I'll never say no  
Now you stand there like you've lost it all  
I'd pick you up  
I will break your fall.

Take my heart  
Take my hand  
Show me what do you want  
Got my will  
What you got is my love on command  
So tell me how does it feel  
In the palm of your hand to stay  
My heart is still young  
My heart is still young.

Yeah, this heart is still young

Tell me how does it feel  
Right in the palm of your hand  
Want you to stay  
My heart is still young.

I would pick you up  
I will break your fall.

Take my heart

Take my hand  
Show me what do you want  
Got my will  
What you got is my love on command

Take my heart  
Take my hand  
Show make what do you want  
Want you do stay  
My heart is still young  
My heart is still young  
My heart is still young.

Take my heart  
Take my hand  
Show me what do you want  
Want you to stay  
My heart is still young  
My heart is still young  
My heart is still young
