

Me And My Man

Jenny And The Mexicats

You've got to stick it together with glue
Make all the pieces together again
And you're tired of playing the rules
Labirabambararimbararaaaaahh

You've got to stick it together with glue
Make all the pieces together again
And you're tired of playing the rules
And you know

But you don't know and you don't understand
Its between me and my man
But you don't know and you don't understand
Its between me and my man

All that she wants it's a blue moon in a blue sky

All that she wants it's a blue moon in a blue sky

You've got to stick it together with glue
Make all the pieces together again
And you're tired of playing the rules
Labirabambararimbararaaaaahh

You've got to stick it together with glue
Make all the pieces together again
And you're tired of playing the rules
And you know

But you don't know and you don't understand
Its between me and my man
But you don't know and you don't understand
Its between me and my man

Me and my man

Me and my man

Me and my man

Me and my man

You've got to stick it together with glue
Make all the pieces together again

You've got to stick it together with glue
Make all the pieces together again

Me and my man
