

## Starting Something

Jenny And The Mexicats

Mix your greens into blue  
I dance to the colours on your shoe  
Starting something we are starting something

Yes I was, I was so in the mood  
The way that he treats me  
He will never leave me, he will never leave me  
But do I bite my lip and become a lady  
And become a lady  
Starting something, we are starting something

I find comfort in you  
How do fight what is the true  
The places that you take me  
What we've been doing lately  
These feelings won't forsake me  
But do I bite my lip and become a lady  
And become a lady  
Starting something, we are starting something
