

# I Got No Strings

Jenny Hval

My word is woman I guess I burn  
I dreamed I was a real boy  
I got no strings

I take in my mouth!  
I place it on my tongue and whirled around  
I made new words, words that I can use

What do you mean you don't understand?  
What do you mean you don't understand?  
But do you understand  
Fire, fire, do you understand

What is a woman? Fire, walk with me!  
Dreamed back then I was a boy  
I got no strings

It was a beautiful song, to them everything  
I got no strings
