

Take It Easy

Jensen McRae

I don't wanna talk about it anymore
It's a blessing but we're beating a dead horse
Fortune tried to drown me some
So you tell me I'm the lucky one
Atlas, did your back get sore?
I don't wanna talk about it anymore
I can't stop the flood from pouring out of me
Drowning in my body and not proud to be
It's a possession, oh, I've done nothing
Don't treat me like I saved something
Noah, was it hard to breathe?
I can't stop the flood from pouring out of me

Take it easy
Take it easy
Take it easy, take it easy

How much of my heart can I afford to hide?
Maybe I'm a fraud in a good disguise
First time in the ring today
They got me fighting with the heavyweights
David, help me hit this fear between the eyes
How much of my heart can I afford to hide?

Take it easy
Take it easy
Take it easy, take it easy

Can't feel my face, this must be the place
Where there's no going back
Hero from the hometown, don't tell me, "Don't look down"
It's too late for that

Take it easy
Take it easy
Take it easy, take it easy
Take it easy
Take it easy
Take it easy, take it easy
