

# With The Lights On

Jensen McRae

Got my heart broken  
I got aggressive  
Tried to take pride in being defensive  
Can't read the room of your body well  
Do you want my love or my help?  
I can't keep my heart to myself

I had a bone to pick  
Wanted a hired hit  
I'm second guessing it  
I'm feeling generous  
I had an axe to grind  
You made me change my mind  
Chip on my shoulder's gone  
Let me come on too strong

Na, na, na, he only loved me after nightfall  
Na, na, na, I wanna love you with the lights on  
Na, na, na, he only loved me after nightfall  
Na, na, na, I wanna love you with the lights on, the lights on

After he left I  
Barely survived it  
Took up with cautious and keeping quiet  
Thought hiding would be  
Good for my health  
But you are like nobody else  
I can't keep my heart to myself

I had a grudge to hold  
Haunted by heartbreak's ghost  
Guess I could let it go  
Don't wanna be alone  
I had an axe to grind  
You made me change my mind  
Chip on my shoulder's gone  
Let me come on too strong

Na, na, na, he only loved me after nightfall  
Na, na, na, I wanna love you with the lights on  
Na, na, na, he only loved me after nightfall  
Na, na, na, I wanna love you with the lights on, the lights on

Wanna love you, wanna love you with the lights on  
Wanna love you, wanna love you with the lights on  
Wanna love you, wanna love you with the lights on

Wanna love you, wanna love you with the lights on

Na, na, na, he only loved me after nightfall  
Na, na, na, I wanna love you with the lights on  
Na, na, na, he only loved me after nightfall  
Na, na, na, I wanna love you with the lights on, the lights on

Na, na, na, I wanna love you with the lights on  
The lights on  
I wanna love you with the lights on

Na, na, na, I wanna love you with the lights on  
The lights on  
I wanna love you with the lights on
