

CLOSER

Jeon Somi

Call me your beautiful girl
And I'ma let this body work
'Cause when it's you and I, oh, you and I, oh
I'ma need you closer

When I'm lookin' in your eyes
I forget about the time
Oh, when we start to sway
It's like I'm losing my mind
And I never thought
That we would end up with each other (With each other)

Oh, got you in my arms
Underneath those lights
You be my oasis for tonight
I lo-o-ove
The way you driving me crazy

Call me your beautiful girl
Black out
One more kiss, so sweet and bitter
Beautiful, yeah, we look like this
Beautiful girl
Give me one more kiss, so sweet and bitter
Beautiful, yeah, we look like this
Say I'm your world (I'm your beautiful girl)
Beautiful, yeah, we look like this

Now, we going downtown
And you spinning me round
With your hands on my waist
And the music real loud
And I wanna stay
Stay right here forever (Here forever)

Oh, got you in my arms
Underneath those lights
You be my oasis for tonight
I lo-o-ove
The way you driving me crazy

Call me your beautiful girl
Black out
One more kiss, so sweet and bitter
Beautiful, yeah, we look like this
Beautiful girl
Give me one more kiss, so sweet and bitter
Beautiful, yeah, we look like this
Say I'm your world (I'm your beautiful girl)
Beautiful, yeah, we look like this
