

Glow in the show

Jeong Sewoon

Why are you always in my mind?
Night and day, longing for your smile
When I wake up in the morning
I think of you before coffee
No one has made me feel like this
It's gotta be love

Floating on air all day
Envision all the things that we can do

There is no doubt
You're the one that I want
Only you're the glow in the show (In the show)
I can't hide this no more (No more, ah)
There is no doubt
You're the one that I love
Only you're the glow in the show (In the show)
I can't hide this no more
You tell me now

How can you make me smile easily?
There is more that we can explore
Oh, I can never be boring
When I have you with me, walking
No one has made me feel like this
It must be love (Must be love)

Floating on air all day
Envision all the things that we can do

There is no doubt
You're the one that I want
Only you're the glow in the show (In the show)
I can't hide this no more (No more, ah)
There is no doubt
You're the one that I love
Only you're the glow in the show (In the show)
I can't hide this no more
You tell me now, tell me now

Here I am, pledging a vow
Only you're the glow in the show
I have to let you know
It's out there now, out there now
Here I am, pledging a vow
Only you're the glow in the show
I can't hide this no more
It's out there now
