□□ □□□□□

This loneliness is so long, it can reach tomorrow
You keep following me as a shadow, with the name of love

If only I could erase you, baby I'm fallin' without you

Still, still, still, I can't forget you
On days I miss you, I sing this song
And, and, and, like a lie, I hope you'll come back to me

I was a shadow, for days and days, I'm struggling at thoughts of you
Your voice, your pretty face, I just can't forget
I wanna turn time back, turn time back
I think I'll go crazy when I see you girl
You're the only one for me
Call me if you're listening to this song

Baby it's never too late
When you come back I'll still wait
Even if the seasons change, we're still young
Give me another shot, don't throw me away like this

This loneliness is so long, it can reach tomorrow
It gets longer like a shadow, before the sun falls asleep

If only I could erase you, baby I'm fallin' without you
Still, still, still, I can't forget you
On days I miss you, I sing this song
And, and, and, like a lie, I hope you'll come back to me

Come back to me, you're like a bookmark
A resting place for my hard life
You know that you have to be in the days we drew out together

You keep following me as a shadow
With the name of love

If only I could erase you, baby I'm fallin' without you
Still, still, still, I can't forget you
On days I miss you, I sing this song
And, and, and, like a lie, I hope you'll come back to me
When can I see you again

I hope you'll come back to me
