

All Over Me

Jeremih

(Intro)

All,all,all over me x8

(Verse)

Hey man they all over me
All you alls go to sleep
Lay it down for the freaks
Lay down something sweet
I'm lights out,sober free
Getting wasted totally
Do them strippers show them trees

(Hook)

All,all,all over me x8

It's ben gonna pop up do be proper
I fuck you 'til you need doctor
I'm a little sharper,hear tiny bop up
Poppin' crystals you wanna do no vodka
I'm young and flashy first and lastly
Shake their heads all thanks to Cassy
Ass shots like she was naked
Or is it real these hoes is tricky
Supper trippy, I can't call it they fake ballin'
And they keep playin' they paintballin'
And they fake poppin'
Keep from holy you hate options
I'm doin' falls and I'm buying leads
You walk offended I'm buying thing
You mad 'til she tryna leave
She curious and she tryna dig
She on the roll with that molly
Poppin' one and she willing
Got no control of her body
Look at what you just started
And I still ain't tryin' man I still ain't tryin
No sweat ,I'm still on time
I ain't never laid her I ain't worn no cape
I don't save them hoes and I ain't lying

All,all,all over me x14

Hey man they all over me
All you alls go to sleep
Lay it down for the freaks
Lay down something sweet
I'm lights out,sober free
Getting wasted totally
Do them strippers show them trees

Any know my birthday
Body shots she can get the first shots
Drink drink up up your thirsty
You tryin' to go home knocked to first base
And I'm tryna stay in VIP let me see your ID
And I see I amaze you
Work it hurt me you heard me
Said they never saw it in the first place

And they say that you should never put a past
Now how about we get to foreplay
And now you can't have my last name
But you can scream my first name
When I flip her from the back
And we roam in the back
So you know I had to kill it in the herse way
Smoking in the purple, LA chill out
Cali fornicate, LA fille
Grabbing on the track like fray on phrase
Riding for the fork like the LA
Yeah I ball 'til it to my way
If you already know Jeremih
If you got that bomb no they no hate
You know I'm that guy and if you know that bomb
Then give me some tick ok,ok

All,all,all over me x14
Hey man they all over me
All you alls go to sleep
Lay it down for the freaks
Lay down something sweet
I'm lights out,sober free
Getting wasted totally
Do them strippers show them trees
