

Changes

Jeremih

How I'm s'pose to miss you every night
How you left me standin' in the rain
How you gonna forget all the things we did in one argument then
change, baby

Changin' up the tempo
You been on my mental
If I could keep you, I would keep it there
We be vibin' like you never left, yeah
This damn too much to handle, yeah
But you gave me what I asked for, yeah
'Cause I told you that I wanted space, yeah
But you didn't have to pump the breaks

How I'm s'pose to miss you every night
How you left me standin' in the rain
How you gonna forget all the things we did in one argument then
change

How you tell me I was playing games
Treat me like you didn't tell me the same
How you gonna forget all the things we did in one argument then
change, change, change

Thoughts in the positions I can see you in
Introduce you to some ghetto romance
Handcuffs, keys up in the dresser, we can leave 'em there
You know it don't make no difference, I can leave it in
You don't have to go
Know I said it like I meant it
We can pick up right here where you left it
No more lyin' to your friends, they ain't gotta know
They ain't gotta know

How I'm s'pose to miss you every night
How you left me standin' in the rain
How you gonna forget all the things we did in one argument then
change

How you tell me I was playing games, playing games
Treat me like you didn't tell me the same
How you gonna forget all the things we did in one argument then
change, change, change
