

Chillin

Jeremih

Before we even start, we gonna need a break
The way we been on and on, oooh yea you better know (yea)
See the sun going down it's kinda late (yea)
Tell me what you want what you saw on the day when you fell in love (ooohhh)
When I'm in the building, feel like it's the beginning
Feel like I made a killin, swear I just made a killin
Gotta keep it realin, oh I love this feelin,
You know I be chillin, you know I be chillin
Feel like I'm off a pill and my whip ain't got no ceiling
There goes another day, here comes another million
Gotta keep it real and, they ask me how I'm feelin
My nigga I'm chillin, my nigga I'm chillin
Yea I'm chillin totally, vintage coat all over me
She whispered in my ear, like boy don't act like you ain't notice me
I say aye girl you cold to me, she said yea I know to me
I say where yo head at, cuz its not where its supposed to be
So I stripped her down to that lace, and she said you are a pole to me
And up and down she go, girl you got that bomb and blow to me
M c4 c4 coco leaf, gon light one up and roll with me,
Couple shots of the liq and forget about what we did
Take a look at the kid, grown up got big
Man ain't shit they can say when I pull up in this whip
Man I'm lovin this, I love this shit
Now let me go and just say it, every time I push start you never want it to
end
I'm a rider, despite your girl tyna pull an all nighter
Real nigga
See all the fake be counterfeit, man this flow just make me sick
I overheard you got the boot, cuz you know we be knocking them (now)
Before we even start, we gonna need a break
The way we been on and on, oooh yea you better know (yea)
See the sun going down it's kinda late (yea)
Tell me what you want what you saw on the day when you fell in love (ooohhh)
When I'm in the building, feel like it's the beginning
Feel like I made a killin, swear I just made a killin
Gotta keep it realin, oh I love this feelin,
You know I be chillin, you know I be chillin
Feel like I'm off a pill and my whip ain't got no ceiling
There goes another day, here comes another million
Gotta keep it real and, they ask me how I'm feelin
My nigga I'm chillin, my nigga I'm chillin
