

# Come Alive

Jeremy Camp

As I watch the world being held captive by dreams  
That will never be fulfilled in this life,  
Chasing the darkness and everything that surrounds  
All the emptiness buried inside,  
Well I won't stop showing this hope that is holding  
The passion so deep in my heart,  
To tell all the world of Your love and affection  
And the plan that You've had from the start,  
So I will continue to fight

'Til the world comes alive  
'Til the world comes alive  
Cause You have restored us  
And You have redeemed us  
And we have been given new life  
Cause You are alive

There is a freedom that begins by receiving  
The forgiveness that cleanses us all  
All the broken and bleeding just start by believing  
His love has conquered death's call.  
So I will continue to fight

'Til the world comes alive  
'Til the world comes alive  
Cause You have restored us  
And You have redeemed us  
And we have been given new life  
Cause You are alive

I walk out on the battlefield  
See that all the pain is real  
Be the hands that stop the bleeding  
Seeing all these wounded souls  
All they really need is hope  
I'll show Your great love is healing

'Til the world comes alive

'Til the world comes alive  
'Til the world comes alive  
Cause You have restored us  
And You have redeemed us  
And we have been given new life  
Cause You are alive  
And You are alive  
You are alive  
You are alive

As I watch the world being held captive by dreams  
That will never be fulfilled in this life
