

## Find It Now

Jeremy Camp

You spoke to soon  
But the words you said  
I still use for good  
The mistakes you made  
I bring it back to my glory

So find it now, find it now  
The faith that you once kept  
Hold on to the words that I spoke

Discouragement sets in  
Because you feel like nothing's  
Going the way that you planned  
Well don't trust in yourself  
And remember that I hold  
You in my hands

So find it now, find it now  
The faith that you once kept  
Hold on to the words that I spoke

So find it now, find it now  
The faith that you once kept  
Hold on to the words that I spoke  
The trials that you're going through  
Remember My faithfulness to you  
My faithfulness to you

Even when all hope is through  
You will find it's not the end of road  
In all your tribulations, stand strong  
And find you rest in Me

So find it now, find it now  
The faith that you once kept  
Hold on to the words that I spoke
