

# Never Stopped Loving

Jeremy Camp

You kept on calling my name  
Through all my darkness and haze  
Even when I had fell apart  
You held me close to Your heart

When I have gone astray  
How You would chase me  
How You would chase me  
When I was so afraid  
You would embrace me  
You would embrace me  
You never stopped loving  
You never stopped loving me  
You never stopped loving  
You never stopped loving me

Over and over again  
You prove a faithful friend  
From here, You'll never turn away  
'Cause You're love, You cannot forsake

When I have gone astray  
How You would chase me  
How You would chase me  
When I was so afraid  
You would embrace me  
You would embrace me  
You never stopped loving  
You never stopped loving me  
You never stopped loving  
You never stopped loving me

You moved heaven and earth  
The cross, You have endured  
I am the joy in Your eyes  
You moved heaven and earth  
The cross, You have endured  
I am the joy in Your eyes  
You never stopped loving  
You never stopped loving  
You never stopped loving me  
You never stopped loving  
You never stopped loving  
You never stopped loving me

When I have gone astray  
How You would chase me  
How You would chase me  
When I was so afraid  
You would embrace me  
You would embrace me  
You never stopped loving  
You never stopped loving  
You never stopped loving me  
You never stopped loving  
You never stopped loving  
You never stopped loving me

You never stopped loving  
You never stopped loving me  
You never stopped loving  
You never stopped loving me
