

Chasing Grace

Jeremy Loops

Head out
Grab myself a new deal
My mistakes
My fears
And my worries
Are on my sleeves
All over again

How do you
Always creep in my head?
You're moving slow
Like a thief in the night
I've been close to losing my mind

How can I
Live with myself?
Talk to me casually, hopefully, I can keep
Chasing grace
To feel something else
If I can live honestly, hopefully, I can keep
Chasing grace

Must have missed it
When I came down
I was defeated
When I stayed down
I had a vision
For a way
I don't always get
Everything right

How do you feel?
Look out for the moment and stop
Fearing the distance
And know what you've got
When tragedy rears its head
Saying someday soon you'll be dead

How can I
Live with myself?
Talk to me casually, hopefully, I can keep
Chasing grace
To feel something else

If I can live honestly, hopefully, I can keep
Chasing grace
Greed remains
We are stronger

Oh, why does meaning follow you?
Open my arms
My head
My voice
All I am
Everything must flow from here

How can I

Live with myself?
Talk to me casually, hopefully, I can keep
Chasing grace
To feel something else
If I can live honestly, hopefully, I can keep
Chasing grace
