

# Happy Birthday

Jeremy Loops

Congratulations  
Come a long way, you're important  
So why the long face?  
May you never take precautions  
So happy birthday  
Yeah, you got this, you look gorgeous  
And even when it hurts  
Can throw it in reverse  
It's only getting worse, eh?

You've come a long way, doing okay  
If you need a hand, you can cry on my shoulder  
Come a long way, such a long way  
You want to grow up but you just grow older  
Grab a bucket of beer for your shame  
Fuck that, no you can't  
Bucket a beer no longer  
I know it's in there  
Whatever's in there get it out

I guess you found out  
What you got there in a crisis  
It wasn't easy  
No you been there, got your license  
So hallelujah  
Get it out there, fucking righteous  
And even now it hurts  
Throw it in reverse  
Who knows what you're worth eh?

You've come a long way, doing okay  
If you need a hand, you can cry on my shoulder  
Come a long way, such a long way  
You want to grow up but you just grow older  
Grab a bucket of beer for your shame  
Fuck that, no you can't  
Bucket a beer no longer  
I know it's in there  
Whatever's in there get it out

It's not about what they told you  
It's just how you feel  
I'm only starting to discover  
What is real  
It's not about what they told you  
Just happens to be  
Tearing down and building at the same time

You've come a long way, doing okay  
If you need a hand, you can cry on my shoulder  
Come a long way, such a long way  
You want to grow up but you just grow older  
Grab a bucket of beer for your shame  
Fuck that, no you can't  
Bucket a beer no longer  
I know it's in there  
Whatever's in there get it out

All of that blood that you're made of  
Get it out  
Nothing to be so afraid of  
Get it out  
It's not a win, it's a trade off  
Get it out  
I know it's in there  
You know it's in there get it-  
Whatever's in there get it out  
  
Get it out
