

Sit Down Love

Jeremy Loops

Met you in the sunshine on the top of signal hill
We've been together long time, but you beat up on me still
Why don't you sit down and ease up your toes
Take a minute out, you still around?
Whoa-oh, you still around?

Why don't you please
Leave it at the door, come talk to me
Talk to me
'Cause we, we can work it out so easily
Uh-oh, won't you sit down, love
Won't you sit down, love
Won't you sit down, love
Won't you sit down, love

Well, I don't believe that you would really want me to be gone
'Cause you know that every time we fight it ends up in song
Why don't you sit down and take a moment, breathe
Before you dive on in
'Cause the water's deep and cold, you'll freeze unless you learn to swim

My darling, now please
Leave it at the door, come talk to me
Talk to me
'Cause we, we can work it out so easily
Uh-oh, won't you sit down, love
Won't you sit down, love
Won't you sit down, love
Won't you sit down

Let's not go to sleep
With something in between us
These petty little grievances running 'round our heads
And I don't really need another explanation
Of all your expectations, I'm just begging, darling

Please, leave it at the door, come talk to me
Talk to me
'Cause we, we can work it out so easily
Uh-oh, won't you sit down, love
Won't you sit down, love
Won't you sit down, love
Won't you sit down, love

Won't you sit down, love
Won't you sit down, love
Won't you sit down, love
Won't you sit down
