

# Underwater Blues

Jeremy Loops

And I get no sleep  
I dream underwater  
Whales and [?] as they roll in my dreams  
We can talk about it

And I get no sleep  
But I dream underwater  
I waste all my years laying under the stars  
Just dreaming 'bout it

Resting my bones just waiting for silence  
We could all use a little more quiet  
With my diary on the desk  
Screaming at me

It's an ineffable thing  
With the wind soaring on the wind  
Through the nefarious night  
A cold hand touches me  
Pulls me deep underwater  
I'm free

A quiver I keep I think, It's time  
Down to the deep below [?]  
Struggling to see  
Fades black  
Whales [?]  
At my back  
[?] calls me home and I  
Breathe underwater and so  
Now I'm brand new

And I get no sleep  
But I dream underwater
