

# Nothing

Jeremy Passion

When I look at you  
Swear that I feel something in my heart  
Telling me it's gonna be okay  
Like maybe this time love will stay

And the sun  
Tries to shine brighter when you walk by  
As if it knows that you caught my eye  
It's jealous that you light up my life

And when the rain pours  
In full force it tries to ruin all our plans  
But it can't

There's not much the world can do  
To keep me away from you  
I am committed  
To make sure these dreams we have come true  
And gravity tries to push me down  
There's no chance when you're around  
Honey we'll make it  
And nothing can stop us nothing can stop us now

If you were the ocean  
And colored leaves of the fall  
They both serve their beauty  
But darlin' you surpass them all

I've been blessed  
With the privilege of loving you babe  
You're proof that God makes no mistakes  
And oh what a beautiful girl he made

And when the rain pours  
In full force it tries to ruin all of our plans  
But it can't  
Oh no it can't

There's not much the world can do  
To keep me away from you  
I am committed  
To make sure these dreams we have come true  
And gravity tries to push me down  
There's no chance when you're around  
Honey we'll make it  
Nothing can stop us nothing can stop

And when life  
When life's an unstoppable force  
And it tries to take us off course  
We'll be immovable

Oh and when dreams  
As beautiful as it may seem  
It ain't better than reality

Cause baby we're better

There's not much not much the world can do  
To keep me away from you  
Cause I am committed  
To make sure these dreams we have come true  
And gravity tries to push me down  
There's no chance when you're around  
Honey we'll make it  
And nothing can stop us nothing can stop us now
