

Trace

Jeremy Passion

There's a trace
From the place ya touched my heart leading
To outer space
Security gate was the last glance we made
At each other
Farewell, Goodbye

Sorta like a ribbon in the sky like Wonder said
Appearing infinite
People try to climb and climb it just to find
The kind of love like yours and mine
Oh what we had.

Love sometimes
Leaves an endless trace behind
Long after it's gone
And moved on
It stays strong

Can you hear
The echo of our love bounce through the atmosphere
It never seemed to go away oh
Could it be
Our hearts knew something we didn't see cuz
I still feel you here with me
Sorta like a ribbon in the sky like Wonder said
Appearing infinite
People try to climb and climb it just to find
The kind of love like yours and mine
Oh what we had

Love sometimes
Leaves an endless trace behind
Long after it's gone
And moved on
It stays strong

It's hard to believe
What we had is now set free
But don't regret one thing
And maybe one day, we'll see
If we were meant to be.

I've designated a place
For the memory of you and I to stay
And if by chance He brings you back to me
This time I'll never let you go no no nooooo
