

She's A Fire

Jeremy Renner

I know she'll be my 3rd degree
Embers in her eyes, she's gonna make a mess of me
Lights me up, I can barely breathe
With her flame so bright, the only thing I'll ever see

And it's more than desire, more than a crush
Pulls you in, you can't get enough
Sends your mind spinning and melts your cool
Until you're praying for rescue

She's a fire, so don't get close
She's a fire, she'll kill you slow
She's a fire, oo-oo-oo
Fire, oo-oo-oo
On and on, she burns the night
She's a fire, so hot there's smoke
She's a fire, stop drop and roll
She's a fire, oo-oo-oo
Fire, oo-oo-oo
On and on, she burns the night

Yeah yeah yeah
She burns the night
Ooh

I love the way she's running me wild (umm)
Burning through my veins, burning right through my mind

And it's more than desire, more than a crush
Pulls you in, you can't get enough
Sends your mind spinning and melts your cool
Until you're praying for rescue

She's a fire, so don't get close (she's a fire)
She's a fire, she'll kill you slow (she's a fire)
She's a fire, oo-oo-oo
Fire, oo-oo-oo
On and on, she burns the night
She's a fire, so hot there's smoke
She's a fire, stop drop and roll
She's a fire, oo-oo-oo
Fire, oo-oo-oo
On and on, she burns the night

She burns the night
Ooh
Yeah yeah yeah
C'mon

Somebody better call the fireman and put her out
'Cause if you don't you know she'll burn this whole mother down (say what?)
I like them hot but this one is hotter than hell (Oww)
She got that smoke that gets you high so just inhale
Yeah, she got that thing that make you lose your mind
Lose your dime, make you wiggle then make her say hey, hey, hey
Aah
