

Stereo Love

Jeremy Renner

She speaks to me just like a song
Her words are melodies I can sing along
A symphony sings so sweet
I can't believe her sound

She's my stereo love
Stereo love
She's my stereo love
Stereo love

Life's in keep the right arrangements
Her tempo's fine with me and she loves my phrases
Let her conduct and cue my choir
We're both in harmony

She's my stereo love
Stereo love
She's my stereo love
Stereo love

She's like a rock n roll legend
With a little bit of blues
She says she's waiting on Elvis
Hoping I can fill his shoes

Stereo love
She's my stereo
Stereo love
She's my love
Stereo love
She's my stereo
Stereo love
She's my love
Stereo love
She is my
Stereo love
She's my love
Stereo love
She's my stereo
Stereo love
She's my love

She's my love
