

Here

Jeremy Riddle

I'm here. Here with You
Where I'm home, where I'm healed
Your name flows from my lips
Sweeter than the sweetest kiss

How my heart loves Your name
It's bursting forth in shouts of praise
I feel heaven's drawing near
It's close at hand and now is here

My heart loves Your name, oh God
It's bursting forth in shouts of praise
My heart loves Your name, oh God

Your name
Satan falls like lightning
His work undone
By my King
