

Made in Love

Jeremy Riddle

We were made in love
And love is casting out
Every little fear
It's driving out the doubt
And we were made to burn
Like the stars above
Singing of His grace
Singing of His love

Your love is high and I can't comprehend it (His redeeming love)
Your love is wild, breaking down all defenses
Your love is high and I can't comprehend it
Your love is wild, breaking down all defenses

We were made in love
And love is casting out
Every little fear
It's driving out the doubt
We were made to burn
Like the stars above
Singing of His grace
His redeeming love

His love is high, and I can't comprehend it
His love is wild, breaking down all defenses
His love is high, and I can't comprehend it
His love is wild, breaking down all defenses

We're not afraid of what it looks like
We're not afraid to be undignified
We're not afraid 'cause Your love has set us free
We're not afraid of what it looks like
We're not afraid to be undignified
We're not afraid 'cause Your love has set us free

We were made in love
And love is casting out
Every little fear
It's driving out the doubt
Oh, we were made to burn
Like the stars above
Singing of His grace
His unfailing love
His love

We were made in love
And love is casting out
Every little fear
It's driving out the doubt
Oh, we were made to burn
Like the stars above
Singing of His grace
And His unfailing love
His love
