

Back In Fashion

Jeremy Shada

Music is a broken record these days
Deja Vu every song sounds the same
Pumped out pop, electric with no electricity
Basic bops, not enough room for creativity

Let's bring back the golden age
Day 1 let's ring it in
Everything new is old babe
And vintage is the vibe again

They say rock is a has-been
But they ain't seen me rolling
Records scratch, smoke fills the air
Boys take note, men need debonair
Let's bring 50's back in fashion
With a little Lights, Camera, Action

Hold up!
Now it's feeling classic
Yellow submarine
We're moving through a mad trip
Paint it black like The Rolling Stones
Let's fall in love to some Nat King Cole
Off the wall, playing on a cassette
If you're gonna steal, better steal from the best

Let's bring back the golden age
Day 1 let's ring it in
Everything new is old babe
And vintage is the vibe again

They say rock is a has-been
But they ain't seen me rolling
8-track tape's, hippie hair
Bell bottom jeans, maybe we'll leave those there
Let's Bring 60's back in fashion
With a little Lights, Camera, Action

Walk in with my suit and tie
That 50's glamour
Swing and dance from side to side
Dropping that disco hammer
60's 70's funk and jazz
They keep me grooving
The 20's are roaring again at last
Baby can you feel the movement

They say rock is a has-been
But they ain't seen me rolling
Radio Romance fills the air
People are dancing without a care
We brought vintage back in fashion
With a little Lights, Camera, Action
We brought vintage back in fashion
With a little Lights, Camera, Action
