

Bewitched

Jeremy Shada

Top down in a coupe, driving to you
Somethings in the air
Walking up to your stoop, anxious in mood, runnin a comb through my hair
You open the door, after one look I need more, all I could do is stare
You smile polite, say boy you got a light, girl you must be something rare

You brought me inside, my thoughts I can't hide, but you act like you don't care
We got all night, to do the wrongs that feel right, but the truth is I wouldn't dare
I'm out of my depth, with you in that dress, babe you don't make it fair
I try to act cool, but who am I trying to fool, I might be in need of a prayer

Cause Baby you're a classic, driving me crazy
You're like magic, casting spells on me
I'm bewitched, by your lips
I've never met anybody else like this
Cause they're all modern, but baby you're a vintage hit

Effortless chic, like an antique
Baby you're one of a kind
Modern flare with that Hepburn hair
You're a girl out of a time
Rich or poor, I don't see how I'd need more
With you I'll always have a dime
I've been blessed, God answers prayers I guess
Cause Otherwise you'd never be mine

Baby you're a classic, driving me crazy
You're like magic, casting spells on me
I'm bewitched, by your kiss
I've never met anybody else like this
Cause they're all modern, but baby you're a vintage hit

Oh Lord I must be over the moon
Cause I ain't on earth when I'm dancing with you
Just to hold your hand means so much more than a kiss from any other girl I've kissed before

Cause Baby you're a classic, you drive me crazy
You're my magic, cast your spell on me
I'm bewitched, by your kiss
I've never met anybody else like this

Cause they're all modern, but baby you're a vintage hit
