

Escape

Jeremy Shada

These little moments
Will stay in my mind for years to come
Your silhouette glowing
I guess your light outrise the sun
You're a mystery
I'll never quite decode
But the look in your eyes
Tells me all I need to know

There's some things you
Just can't find at home
Tell me where you're dreaming of
And we'll go

Everybody wants a good secret
Babe, let's make a few of our own
Running round the city like we're just kids
Dancing like we're all alone
Ain't got no maps, don't know where we're at
But that's where we wanna be
Just you and me

Baby, let's escape
We can fly away

How could I want you more?
The city lights reflects in your eyes
And brighter than before
Even after all this time
There's so much I don't know
Baby, everywhere we go
You catch me by surprise
You keep it new every night

There's some things you
Just can't find at home
Tell me where you're dreaming of
And we'll go (And we'll go)

Everybody wants a good secret
Babe, let's make a few of our own
Running round the city like we're just kids
Dancing like we're all alone
Ain't got no maps, don't know where we're at
But that's where we wanna be
Just you and me

Baby, let's escape
We can fly away
Baby, let's escape
We can fly away

What a sight
Cherry blossom
Angel in white
Leaves in autumn

Everybody wants a good secret
Babe, let's make a few of our own
Running round the city like we're just kids
Dancing like we're all alone
Ain't got no maps, don't know where we're at
But that's where we wanna be
Just you and me

Baby, let's escape
We can fly away
Baby, let's escape
We can fly away
Baby, let's escape
