

# Good Bye

Jeremy Zucker

(You know it  
You know it  
You know it  
It's over  
You know it)

You'd like it better  
If I said you're the one  
I'm like whatever  
When you call and you're drunk

Well hold the phone  
Call me back when you hold your own  
And you know the ropes  
Climbing up and you're all alone  
But you don't even know what love you came for  
Cuz this was not the type of shit I'm made for

You'd like it better  
If I said you're the one  
I'm like whatever  
When you call and you're drunk  
It's over  
You know it  
You know it  
You know it  
It's over  
You know it

Yeah, I'm tired and feeling empty  
If this is what you want, you could just tell me  
I'm cold, my heart is colder  
Outside it started snowing when it turned October  
Ok, I don't mind if we talk it out  
Just keep your voice down when you run your mouth  
It's all in your head girl don't turn it on me

You'd like it better  
If I said you're the one  
I'm like whatever  
When you call and you're drunk  
It's over  
You know it  
You know it  
You know it  
It's over  
You know it

Yeah, it's over  
You know it  
You know it  
You know it  
It's over  
You know it
