

Icarus

Jeremy Zucker

And I don't know how I'll fall asleep
When lying next to you is a dream
Just let it go and fall into me, into me

Where did you go?
Where did you come from?
I should've known
I could've run from
But when I move
It just brings me back to you

I get this feeling when you hold me close
I know it's burning but I won't let go
They told me I couldn't go higher
I'm flying with my wings on fire
I get this feeling when you hold me close
I know it's burning but I won't let go
They told me I couldn't go higher
I'm flying with my wings on fire
I get this feeling when you hold me close
I know it's burning but I won't let go
They told me I couldn't go higher
I'm flying with my wings on fire

And being with you just makes it harder
I'm easily the worst on my own
The distance never makes you seem farther, you know?

Where did you go?
Where did you come from?
I should've known
I could've run from
But when I move
It just brings me back to you

I get this feeling when you hold me close
I know it's burning but I won't let go
They told me I couldn't go higher
I'm flying with my wings on fire
I get this feeling when you hold me close
I know it's burning but I won't let go
They told me I couldn't go higher
I'm flying with my wings on fire
I get this feeling when you hold me close
I know it's burning but I won't let go
They told me I couldn't go higher
I'm flying with my wings on fire

Try to shoot me down
And I'll find reason to get up
And leave the ground
And I will fly
I get this feeling when you hold me close
Try to shoot me down
I know it's burning but I won't let go
And I'll find reason to get up
They told me I couldn't go higher

And leave the ground
I'm flying with my wings on fire
And I will fly

I get this feeling when you hold me close
I know it's burning but I won't let go
They told me I couldn't go higher
