

# Backdoor

Jeriq

Through the back door  
Hating ass \*\*\*\* use the back door  
Too much properties they calling me the land lord  
Ooh! Praying for these bitches call me pastor  
If you ain't got it & you hating use the back door  
Through the back door  
Blue lights coming use the back door  
We got money we stay clearing off the dashboard

Ogbe from the bank to the bando  
We selling all this packs from the backdoor  
My shawty sitting on my laps like a laptop  
I'm not an under dog I belong to the top floor  
Game over it's my turn  
Beginning, I have been winning, winning from the beginning  
What is remaining is stars on my ceiling  
I'm never matching break for red light cos I'm navigating  
Profiting till infinity with NFT

I can never bleed, never bleed  
You know I came up from the streets, from the streets  
I got everything I need, all I need  
Yeah, I practice what I preach, what I preach  
I can never bleed, never bleed  
You know I came up from the streets, from the streets  
I got everything I need, all I need  
If you not fucking with me, I'll fuck your bitch

Through the back door  
Hating ass \*\*\*\* use the back door

First thing in my bucket list is getting rich  
Traveling from my city searching for peace  
Visa to ibiza it's official  
My life is a movie directed by the omega  
Boss you can not play or pause me, no remote for that  
Ask around accepting failure is not in my format  
In a foreign town rocking Puma up and down  
She want another round by zero zero hour

I can never bleed, never bleed  
You know I came up from the streets, from the streets  
I got everything I need, all I need  
Yeah, I practice what I preach, what I preach  
I can never bleed, never bleed  
You know I came up from the streets, from the streets  
I got everything I need, all I need  
If you not fucking with me, I'll fuck your bitch
