

# Ogbe In London

Jeriq

My plane just landed, touchdown UK, finally janded  
Telephone is ringing, visa is secured, about to link with the mandem  
Airport car park, look at the driver holding my name at arrival  
In the back of the jeep, I told myself, "Samson avoid Delilah"

Oṣuọfia in London, no! no! Ogbe in London  
Ghana must go bag on me, yo, yo! Ogbe in London  
No casting, casting what happens in London stays in London  
Oṣuọfia in London, no! no! Ogbe in London

I'm beating charges like Mendy  
My only crime is chasing the Benji's  
Mandem mandem innit, riding canary wharf in Bentley  
I'm no more living in the hood but the hood is living in me  
I need a pin to change my sim, no pin, so I used diamond earring  
Booked an Uber, blue Tesla came, guy, nke a akpofego m  
I'm still unknown like "T" in Homerton B, loud ndi a akpofego m  
My eyes is red like London bus  
Stacking up is a must  
Stunting, stunting don  
Doubling, doubling coin

Telephone is ringing, visa is secured, about to link with the mandem

They know-  
they know that's where I come from Born on the block but I grew in naij  
Ain't no suit n tie, isi ewu in my stew n rice  
See them thinking to make the decision to him like, "bikonu, choose am wise"  
Choose ọfụma, choose am well  
Anyị ga-kpaso ị tooth and nail  
At the airport meeting Jeriq  
Bro gets protec like he a Phillip  
They all watching the boys got the fee for feast  
But the owners my bro, so we eating for cheap  
When I say that your lady was stretching to touch man a sec, it ain't even a  
reach  
They don't sow but they're eager to reap  
Just stalking the bros if we keep it a bean
