

Down With The Dynasty

Jeris Johnson

Bend the knee
And listen to your king
Silenced screams
An angel gets their wings
Ancient death
The shifting of the sea
And I'm the one you need
'Cause I was born to lead

This is my throne
If you're with me
Come and get down with the dynasty
Ooh ratatata!

This is my throne
If you're with me
We will go down in history
Ooh ratatata!

Down like you're supposed to be
Crown molded just for me
Sound of the tyranny
Out with the old and weak
Bound are your hands and feet
Proud of the family
Loud as the people sing

Dragonborn rise
Swords in the sky
March through the night
This is our time
He is the light
Reason we fight
Hear as he cries

This is my throne
If you're with me
Come and get down with the dynasty
Ooh ratatata!

This is my throne
If you're with me
We will go down in history
Ooh ratatata!

You can't have this crown

This is my throne
If you're with me
Come and get down with the dynasty
Ooh ratatata!

This is my throne
If you're with me
We will go down in history
Ooh ratatata!
