

# Going Ghost

Jeris Johnson

I like these chains, I like these rings  
But ain't nobody gonna put 'em on me  
You light my fuse, you fuel my fire  
But moving on's gonna get me higher

There's no, there's no way out  
Guess I'm hollow, I'm not proud  
Taste the metal in my mouth  
Goodbye rings out

All I know  
Is that I can't keep going ghost  
And I should feel  
Like the pain I'm causing is real  
And I was chosen by the night  
Let the darker side of my mind  
Take over, you know  
That I can't keep going  
Can't keep going ghost  
(Going ghost)

Look at me, look at me now  
I'm going phantom on her  
Pulling her, pulling her down  
That's all she ever wanted  
Deeper and deeper tonight  
'Cause when you fall for me  
You fall in the abyss

No, she never seen the sunrise with a samurai  
I'm kintsugi with the gold, I got her shining bright  
Got her smiling while she's sucking on the dynamite  
Yeah, I'm that kinda guy, my love is suicide, s-s-suicide

I like these chains, I like these rings  
But ain't nobody gonna put 'em on me  
You light my fuse, you fuel my fire, yeah yeah

All I know  
Is that I can't keep going ghost  
And I should feel  
Like the pain I'm causing is real  
And I was chosen by the night  
Let the darker side of my mind  
Take over, you know  
That I can't keep going  
Can't keep going ghost

There's no, there's no way out  
Guess I'm hollow, I'm not proud  
Taste the metal in my mouth  
Goodbye rings out  
Goodbye rings out  
Goodbye rings out  
Goodbye rings out  
Goodbye rings out

All I know  
Is that I can't keep going ghost  
And I should feel  
Like the pain I'm causing is real
