

I WANT BLOOD / i want love

Jeris Johnson

Jeris Johnson has a big, fat, huge...

Tell me something I don't know
I could fuck the Super Bowl
If she leaves, I let her go, I'm invincible
I see power in control
I could never be normal
You see ego, I see soul, I'm invincible

Guess I gotta go somewhere
Guess I gotta find someone
Focus on the things I said
Think about the things I've done
Guess I gotta go somewhere
Guess I gotta find someone
Focus on the things I said
Think about the things I've done

Just like a lamb I'm a slaughter
Just like a lamb I'm a slaughter
I'm getting head from your daughter
I'm going dark now I got her
You kinda look like a nerd
I'm craving blood got a thirst
I'm craving pussy and money
Like Satan, I'm blessed with a curse

Guess I gotta go somewhere
Guess I gotta find someone
Focus on the things I said
Think about the things I've done
Guess I gotta go somewhere
Guess I gotta find someone
Focus on the things I said
Think about the things I've done

(Jeris Johnson...
Has a huge ego)
