

# One Night

Jeris Johnson

She said, "Please"  
"Can you please stay, Jeris?"  
"Can you please stay, Jeris?"  
Yeah

I said, "Do you wanna be my baby?"  
She said, "Can you come around more lately?"  
I said, "Only when I feel like, feel like"  
She said, "Gotta be a more than a one night"  
I said, "Do you wanna be my lover?"  
She said, "No more keeping undercover"  
Yeah, and when I turn off the lights  
She's begging me for more than one night

One night (One night), one night (One night)  
Fucked up, so I'll give you one night  
One night (One night), one night (One night)  
Fucked up, so I'll give you one night, yeah

One night is all you're gonna get  
You better waste no time, we gotta make it worth it  
I'm on a five star, seen the sunset  
So baby, don't fall in, I'll make you freaking wet  
Tell you what it is, tell you what it ain't  
Talk for one night, fuck for one day  
Make the bed shake, make my head ache (Yeah)  
Think I love you right now, but I'm  
Getting sober  
Getting closer  
Run me over  
Can't get enough, yeah, yeah  
I tell the world, "You can suck on my dick"  
I'll make it rock, dominate this shit  
I wanna bang with a crazy bitch  
Who wanna look at my dumb body

I said, "Do you wanna be my baby?"  
She said, "Can you come around more lately?"  
I said, "Only when I feel like, feel like"  
She said, "Gotta be a more than a one night"  
I said, "Do you wanna be my lover?"  
She said, "No more keeping undercover"  
Yeah, and when I turn off the lights  
She's begging me for more than one night

One night (One night), one night (One night)  
Fucked up, so I'll give you one night  
One night (One night), one night (One night)  
Fucked up, so I'll give you one night, yeah

One night (One night), one night (One night)  
Fucked up, so I'll give you one night  
One night (One night), one night (One night)  
Fucked up, so I'll give you one night, yeah

She was, like, "Yeah, but like  
You wanna, like, be my boyfriend?"

And I was like, "Fuck, like, probably not"
