

# Take Me Away

Jeris Johnson

Now we got another dead one  
Palpitating on the bed one  
Suffocating in the head one  
Blood draining from the red wine surgery  
Dead one  
In the matter of a second  
And I ate another breadcrumb  
And I'm running on the deadline perfectly

Hey, took a couple volts for the hell of it  
Hey, I ain't scared of ghosts, I'm a skeleton  
Hey, I've been on the hook hanging out to dry  
Hey, don't give me that look like I'm going blind

Oh, something in the lake, something in the lake  
Oh, I'm about to break, I'm about to break

Somebody take me away  
Cuts on me don't heal the same  
I rot, drop and decompose  
The hole in my head won't close  
Somebody take me away

Now we got another victim  
Now I'm beating up the system  
Sick of treating all the symptoms  
And I think I'm 'bout to hit capacity  
Victim  
Don't wanna hear another ism  
I don't even wanna listen  
I don't wanna see the shit I have to see

Oh, something in the lake, something in the lake  
Oh, I'm about to break, I'm about to break

Somebody take me away  
Cuts on me don't heal the same  
I rot, drop and decompose  
The hole in my head won't close  
Somebody take me away

Take me away  
Take me away

Die

Somebody take me away  
Somebody take me away

Somebody take me away  
Cuts on me don't heal the same  
I rot, drop and decompose  
The hole in my head won't close  
Somebody take me away
