Welcome to Valhalla  
Welcome to Valhalla  
Welcome to Valhalla  
Welcome to Valhalla

Welcome to Valhalla  
Sacrifice and trust and you'll get to meet the mother  
Paradise in blood, and we'll drink it with our brothers  
Can you hear the gods as they call us through the thunder?

Seven seas I will always plunder  
Lungs that breathe I will always puncture  
This hunger will never fade  
Until I reach Valhalla's gates  
Until I see the sacred lake  
Until I bleed I pledge my faith  
I am awake  
And I would get the fuck out of my way  
Bitch

Even when my knees start shaking  
I know it's a risk worth taking  
So I can finally see from the mountain top

(Fight!)  
We're never giving up  
(Fight!)  
No army big enough  
(Fight!)  
There is no fear in us  
(Fight!)  
Staring the beast in the eye  
(Fight!)  
Arrows unleash in the sky  
(Fight!)  
Valhalla, receive all my brothers who've suffered and given their life to th  
is

(Fight!)  
The killing is glorious  
(Fight!)  
And we'll be victorious  
(Fight!)  
Forever notorious  
(Fight!)  
A legend we never let die  
(Fight!)  
Steel that can travel through time  
(Fight!)  
Valhalla, receive all my brothers who've suffered and given their life to th  
is fight!

(Thunder)  
I hear you  
(Thunder)  
All for you  
(Thunder)  
I give you my life

(Thunder)  
I hear you  
(Thunder)  
All for you  
(Thunder)  
I'm ready to die

Keep it moving wipe the blood off my face  
Odin knows I'm coming open the gates  
I burn like fire on the edge of the blade  
This is my last breath that I take

Welcome to Valhalla  
Welcome to Valhalla  
Welcome to Valhalla  
Welcome to Valhalla

Welcome to Valhalla  
Welcome to Valhalla  
Welcome to Valhalla  
Welcome to Valhalla
