

This Time

Jermaine Jackson

I don't take you walking on sandy shores
We don't
At the drive-in movies
We both all right
Watchin' every love scene and every kind of fight

Have we begun to change with time
Have you and me disappeared
Have we grown up and left behind
All of our good years

What we need here is a little touch of madness
Those high school days
When love was so much better
Oh, tell everybody that they're gonna find us
Way back when love was letter sweaters

Girl, I just know this time
We're gonna make a stand toether
'Cause I know it's never too late, girl

This time
We're gonna make a stand together
'Cause I know it's never too

What we need here is to let imagination
Turn back our life for just a minute, sugar
I loved the love that we were makin', honey
Find yesterday and drop us in it

Have we begun to change with time
Have you and me disappeared
Have we grown up and left behind
All of our good years

Girl, I just know wanna hold you again
Oh, baby
Wanna love you
Ooh, hey, hey
'Cause girl, I just know
This time we will be

Have we begun to change with time
Have you and me disappeared
Have we grown up and left behind
All of our good years
