

## Voices in the Dark

Jermaine Jackson

In the still of the night  
When the whole world is dreaming  
Shadows start to fall  
I can hear your spirit call

And it stirs me inside  
All caught in the twilight  
Fantasies appear  
Whisper in my ear

You are the one for me  
Come and take my hand and lead me on  
Let me kiss and hug you... show me how to love you  
An' if you won't I know I'll lose my mind  
'Cause I keep hearing

Voices in the dark (love is calling)  
Talking to my heart... without warning  
Images appear... love is calling  
Whispers in my ear

In the light of the day  
When my mind starts to wander (my mind slips away)  
There is nothing I can do  
My thought run back to you

You really got me girl  
Come and take my hand and lead me on  
Let me kiss and hug you... show me how to love you  
All night long  
If you won't I know I'll lose my mind  
I keep hearing  
Voices in the dark... love is calling  
Talking to my heart... without warning  
Images appear... love is calling  
Whispers in my ear  
Voices in the dark  
Talking to my heart  
Echoes in my dream... love is calling  
You're the one for me
