

You Belong To Me

Jermaine Jackson

You belong to me
You keep the warm in my life
All I live to do
Is bring out the fire in you, too
Someone waits you alone
'Cause I got you here for my own

You belong to me

On my own
It's a crime
When you're around, baby
It's divine

You belong to me
You keep the warm in my life
All I live to do
Is bring out the fire in you, too
Someone waits you alone
'Cause I got you here for my own

You with your eyes
Ooh, you took mind my mind
From now on, lady
You'll be mine

You belong to me
You keep the warm in my life
All I live to do
Is bring out the fire in you, too
Someone waits you alone
'Cause I got you here for my own

You belong to me

Like a buttercup they build me up
All I want is your deep down love
All I wanna do
Give it all to you
No other love could stand between us

And you
You belong to me
Thank you for sharing my life
All I live to do
Is bring out the fire in you, too
Someone waits alone
'Cause I got you here for my own

You belong to me
You keep the warm in my life
All I live to do
Is bring out the fire in you, too

You belong to me
You keep the warm in my life
You belong to me

You keep the warm in my life
You belong to me
