

## Good Times

Jerry Butler

Got no job and my pockets  
They don't jingle  
But as long you belong to me  
There's gonna be good times

Then look back, oh  
I can't afford to take you places  
But as long as you have faith in me  
There's gonna be good times

There's gonna be good times  
Gonna have the world on a silver platter  
And all that's ever gonna  
Matter to me is how to make you happy

But for now, now, now, girl  
All I've got are hopes to offer  
And I know as long as  
You're here with me

There's gonna be good times  
Gonna be good times, yeah

We'll have the world on a silver platter  
But for now yeah, yeah, yeah
