

Brighten

Jerry Cantrell

Solemn drifter
You have your days
And all these wonders
Never took your pain away

Magnifiers turn your
Sunshine to hell
Time you leave this place
You know oh so well

Brighten
Brighten

Better angels
But you don't pray
Push back on the darkness
In which you damn well like to play

Now you find yourself
In the same boat again
Going out alone on this ocean
Not if, but when

Brighten
Brighten

Only reap what you sow
Only reap what you sow

All your love has not
Gone to waste
Shine like starlight
Leading home from the edge of space

Magnifiers turn your
Sunshine to hell
Time you leave this place
You know oh so well

Brighten
Brighten

Only reap what you sow
Only reap what you sow
Only reap what you sow
Only reap what you sow
